THE 3 ROSE BOOK SERIES

BY VALERIE JO

Valerie Jo Skiles was born February 2, 1947 in Des Moines, Iowa, to William Edward and Dorothy Irene Skiles. Her life story is best told by flashbacks in time. Chapter by chapter Valerie is able to recall and write down her experiences from the time she was an infant, through her young childhood and then on through her early school years. She is able to vividly describe her thoughts as she suffered many indignities.

The battle we fight in this life as human beings; for truth, freedom and fulfillment of purpose, is exemplified in Valerie Jo's story. She has used herself as a representative example and a voice on behalf of those whose voices cannot or will not be heard. It is because of what she has discovered about herself, that she is now inspired to believe everyone has potential for the best life has to offer them, and that this dynamic lies inside every one of us. All that is necessary to achieve the ultimate in everything pertaining to; truth, liberty and fulfillment, is for an individual to connect with what unleashes them from what is hindering their development to fulfill their full potential. "There is a way to become the best you, you can be; who you really are and what you were actually meant to accomplish during your short time on this earth."

This incredible source is revealed within and throughout the contents of Valerie's life story. This was her journey, this was her quest and this is what this incredible story is all about... "EXPOSING THE DARKNESS AND REVEALING THE LIGHT!" Within this story the reader sorrowfully witnesses Valerie Jo turning from pure innocence into a heart of stone. The ruins of her life happen through a process, not an event, as does her healing. If the reader has anything hidden within his or her own life, it is sure to be exposed while reading this remarkable book series.

Valerie's refreshing encouragement to her reader helps them realize the many things she has discovered about life. "A person's sense of self-worth is not based upon someone else's opinion of you... We may not think that we have the ability, but we do have the availability... If you don't believe you can do something, you will never get it done... Everyone wants to change the world, but few want to change themselves... Actually, this is where it all begins... with you!"
